

INTERBUS

Conformance Mark Certificate No.:

32825 Blomberg

Confirmation is hereby given that the device(s) described below meet the INTERBUS conformity requirements and that approval has been granted for the products to bear the INTERBUS system logo with the specified certificate number, as the certification mark. The approval also applies to all series products of the tested device and to all identical devices named below, which are sold under another company name(s) (second source).

Applicant, address of applicant
Brief description of the device, classification
Type(s), designation(s), name of second source
Field of application, special operational restrictions etc.

The attached certification protocol, number _____, and any accompanying documents form part of this conformity mark certificate. The conditions mentioned therein are to be met by the specified deadlines.

Any change to the design, material or manufacturing process of which the INTERBUS Club e. V. has not been informed and about which no agreements have been reached shall invalidate this certificate.

The INTERBUS Club e. V. retains the right to withdraw the conformity mark certificate in the case of changes to the examination regulations, the INTERBUS specifications and the test specifications, which affect the test.

The approval applies until _____.

The approval depends on changes to the design and series production, notified to the INTERBUS Club e.V. and agreed with the latter.

Blomberg,
Place and date

INTERBUS

Because of the services, pieces of information and/or notifications made available, no one will – as far as legally admissible - be liable for any damages regarding the contractor's equipment or other property of the contractor. This does not apply for gross breach of duty by the INTERBUS office leading to injuries and/or health damages. The same applies for profound breach of contract by INTERBUS. In this case the liability is restricted to the order value. INTERBUS do not give any guarantees or any warranty regarding the precision and completeness of the information provided. INTERBUS accept no liability for mistakes or omissions with respect to the contents of the documents provided by INTERBUS. As far as legally admissible, the entire documentation and certification of INTERBUS will be made available without explicit, implied or tacit liability for defects or guaranty. No warranty with respect to the applicability of certified products for certain applications can be deduced from the certifications.

It rests with the contractor to test for correctness.
